Event Title: 5<sup>th</sup> American Alternative Muscle Club Meeting

Venue: The Sanford Consortium For Regenerative Medicine  
2880 Torrey Pines Scenic Dr.  
La Jolla, California 92037

**Genea Biocells is proud to be sponsoring the Young Investigator Awards and poster prizes for the 2017 Alternative Muscle Club Meeting this Friday, September 22, 2017 at the Sanford Consortium for Regenerative Medicine.**

**This meeting is an opportunity for young investigators early in their research careers from academia, industry and medical sectors to present their work in a relaxed environment. The free daylong meeting will cover a wide range of research areas, reflecting the diverse types of cutting-edge muscle research undertaken today. Topics will include Muscle Structure and Signaling, Biomechanics and Biophysics of Muscle Contraction, Muscle Development, Muscle Regeneration and Cardiac vasculature.**

**The AMC has always been a meeting for young scientists with a strong emphasis on career support and networking and will again include the 'Translational Medicine Workshop' along with 'Interviewing for Industry' workshop and a 'Funding Opportunities Panel.'**

**For more information on AMC please visit: [Alternative Muscle Club](#). For more information on Genea Biocells please visit: [Genea Biocells](#).**
