Our work is about people and science

- Support services
- Education
- Policy changes
- Research funding

Studies and People with dementia

- Our County Transportation concerns
- Spanish speakers
- Geography

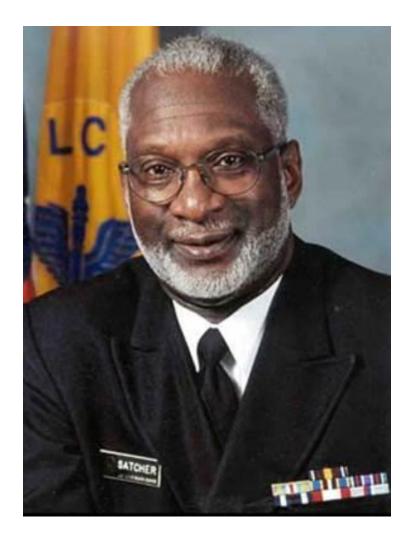

TrialMatch®

- A free, easy-to-use clinical studies matching service that connects individuals with Alzheimer's, caregivers, healthy volunteers and physicians with current studies.
- Our continuously updated database of Alzheimer's clinical trials includes more than 225 promising clinical studies being conducted at nearly 700 trials sites across the country.
- Through clinical trials, researchers test new ways to detect, treat and prevent Alzheimer's disease and dementia. Recruiting and retaining clinical trial participants is now the greatest obstacle, other than funding, to developing the next generation of Alzheimer's treatments.

"Alzheimer's is the most under-recognized threat to public health in the 21st century."

-Dr. David Satcher, former U.S. Surgeon General and former Centers for Disease Control and Prevention (CDC) Director

Why Public Health? There are ways to intervene

#KNOWBRAINER

Less than half of all people affected by Alzheimer's disease have been diagnosed by a physician. Even fewer have been informed of their diagnosis.

Goals

Increase public awareness of signs and symptoms of dementia

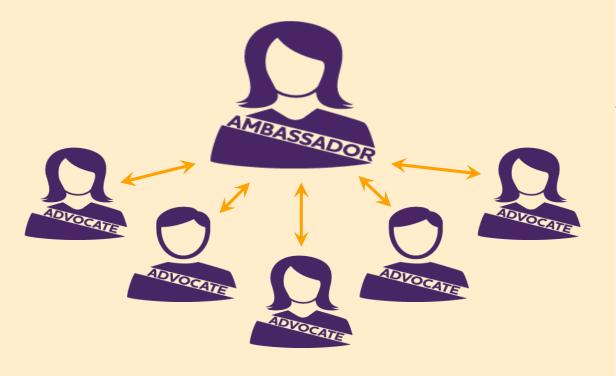

Improve early detection and timely diagnosis of Alzheimer's

Target outreach to individuals and communities at high risk (e.g. African American, Asian-Pacific Islander, Latino, Native American and women) with strategies to reach underserved and under-represented populations (e.g. LGBTQ, rural, live-alone, youngeronset)

Alzheimer's Congressional Teams

Join an Alzheimer's Congressional Team!

Be part of our Ambassadors success story!

By joining with thousands of Alzheimer's advocates nationwide you've lent momentum to our shared vision of a world without Alzheimer's. Thank you!

The Alzheimer's Ambassadors program harnesses that momentum to develop deep, one-on-one relationships with each member of Congress.

And, it's working! With an Ambassador in every congressional district, we've passed critical legislation and nearly tripled federal funding for Alzheimer's research in just a few years!

What could you bring to a team?

But our Ambassadors can't win this fight alone. They can't be everywhere at once, nor can they match the stories, relationships and skills of a diverse team. So they're looking for a few good team members — like YOU!

When you join an Alzheimer's Congressional Team (ACT), we can train you to support Alzheimer's Association advocacy efforts in a wide variety of ways, some of which take just an hour or two every few months. Whatever your experience and availability, odds are there's a place for you on an Alzheimer's Congressional Team!

Alzheimer's Congressional Team Member Application

Please tell us what ACT member activities interest you. We'll add you to our advocacy alerts and if your interests match our needs in your area, we may invite you to join a Team and/or provide opportunities to get involved with state legislative advocacy.

- Meet with elected officials Lend your voice in district offices, state capitols and at the Advocacy Forum in D.C.
